· SILENT COOLIDGE

President Calvin Coolidge has the happy faculty of keeping silent on certain questions which have been brought before him, especially where it requires courage and backbone to act. In most cases that we have observed, the President is found, if not silent, dodging the Issue, passing the buck, or in some way getting away from the same, passing the buck, or in some way getting away from the same nated in the large way from the same stock in trade is silence.

We tare thinking of his stand on the Ku Klux Klan parade, which is scheduled to take place early in August at the Nation a Capital. On such an impostant matter as that of the Klan, we find the President dodging behind some subordinate of his. This course, is rather unfortunate or at least very disappointing to thousands of voters who voted for Calvin Coolidge.

Because the Klan is a lawless origanization Tostering racial and religious hatred among the people of the Nation, makes it very necessary that the President of the United States speak out and let the people know where he stamts on the question. Nibbling at the issue and pusyfooting will not satisfy the patriotic, liberty-loving people of America. This is the time for Coolidge to speak out. The greatest sin is being silent whom one should peak.

Just suppose there was a man in the White House like Theodore Roosevelt. Is there any doubt as to what would happen if bis attention was called to a proposed Kian parade at the Nation's Capital? The Kian wouldn't dare attempt such a thing Roosevelt was called the man with the "Big Stick." but he was a man with a decision. He would take a stand even though he might make a mistake.

The country to day is, in great need of men of the Roosevelt type. If we had such men in high places, things would be different from what they are now.

BULLARD SHOULD BE COURT-MARTIALED

BULLARD SHOULD BE COURT MARTIALED
Toughing from the testimony of many eye-witnesses there is
no doubt in our mind but that General Robert Lee Bullard has
libeled the Negro Troops, who so nobly served with the Amperican
Expeditionary Force in France during the great World War. To
easy-that Negro soldiers are cowards is a false, statement of the
lonsest sort and every fair-minded man in America will say so.
As we have said before, we do not believe that any appreciable number of people will have any faith in Bullard's sincerity,
but his intent should be condemned, not only by the general jublic, but by the United States government itself. He ought to be
called upon-to prove his charges or stand a court-martial. No
man in fit to hold a commission as an army officer, who is so
it dwarfed hy race prejudice that he will spend so much of his time
studying and writing a pack of lies against Negro soldiers merely
to grafify bis prejudices.

An officer in the army has no more right to libel men under
him than the men have to falsely accuse him. But inasmuch as
Bullard has taken the initiative in this matter and because he is
the ranking officer in the case, we call upon the Secretary of War,
to do his duty in this matter.

The clash reported between the Khen and the anti-Rian forces in Massachusetts a few days, ago, is but a forerunner of what may be expected at Washington, D. C., early in August, abould the forces of the Invalible Empire be parmitted to stage as called a meeting last Monday alght. Washington, D.
